As communities begin to feel the impact of the coronavirus (COVID-19), we want to share with you the steps we’re taking at the Avila Beach Golf Resort and Blacklake Golf Resort to help protect the health and safety of our customer and associates, which is always our top priority.

We are continuously monitoring local and national reports on the evolving impact of COVID-19 and based on guidance from the Centers for Disease Control and Prevention (CDC), the World Health Organization (WHO), and applicable public health agencies, we’ve developed plans and established a task force that will allow us to respond timely and appropriately.

We have expanded our housekeeping and sanitization on our properties. We’re frequently disinfecting often-touched surfaces such as door handles, countertops, keypads, and restroom surfaces. We’re asking all of our associates (and we urge everyone) to follow the CDC guidelines to prevent the spread of the infection.

We have provided signage onsite encouraging attendees to practice Respiratory Hygiene.

- Covering your mouth and nose with a flexed elbow or tissue (not hands) when coughing or sneezing
- Avoid touching your nose, and mouth to avoid transferring germs from surfaces
- Discard a used tissue immediately into a closed trash can
- Wash your hands frequently with an alcohol-based sanitizer and/or soap and water right away.

We have also provided signage to encourage employees and guests to maintain Social Distancing.

- Adopt a no-handshake policy at the event
- Try to stand a minimum of 3 feet (1 meter) from other people, especially those who may be sneezing, coughing and/or exhibiting cold/flu symptoms

We feel deeply for those who have been affected. Thankfully, as of now, we’re not aware of any associate contracting COVID-19. But we have implemented guidelines that instruct any associate who may develop symptoms or come into contact with infected individuals to stay home and follow the CDC’s instructions.
At this time, we are open for business during regular hours to meet the needs of our customers. If we become aware of any condition that would make it unsafe, please rest assured that we’ll close operations until those conditions have been addressed.

Again, the health and safety of our customers and associates are our top priority and we’re committed to doing our part to help keep you safe.
